Case Title:	Fraudulent OLX Buyer QR Code Payment Theft	**Reported On:**	2026-10-10 21:22:32

Incident Summary & Victim Statement

I listed a wooden sofa set on OLX for Rs 45,000. The buyer claiming to be Vikram Singh from the Indian Army contacted me on WhatsApp (+91 9823145670). He claimed he wanted to reserve the sofa and sent a QR code stating "Scan this QR code and enter UPI PIN to receive advance deposit of Rs 45,000 in your bank account". When I scanned and entered PIN, instead of receiving money, Rs 25,000 was debited immediately to UPI ID vikram.store98@okaxis with UTR 928172645102. When I objected, he claimed a technical glitch and asked me to scan another code of Rs 20,000 to reverse it, which also got debited with UTR 928172645103.

1. Digital Evidence Inventory & Cryptographic Custody

Every accepted file is preserved byte-for-byte in read-only custody. Cryptographic hashes ensure bit-level tamper detection.

5. Investigator Notes & Observations

[Triage Recommendation] by Inspector R. Sharma on 2026-10-10 21:22:
Evidence inventory exhibits strong cross-corroboration. Beneficiary UPI ID vikram.store98@okaxis and phone +91 9823145670 match across chat export, bank statement, and payment screenshot. UTR references 928172645102 and 928172645103 are documented. Cumulative debits match claimed ■45,000 loss exactly. Recommending immediate bank nodal liaison to freeze beneficiary account at Axis Bank.
